BIOGRAPHY

I'm a young ICT professional working as **UX Designer** at EIT Digital in Trento on CrowdInsights, a project which involves TELCO companies and research centers. I am also organizing a serie of "Innovation Talks". I'm the **President** of both the EIT Digital Alumni and Speck&Tech, a **tech-community** I co-founded in Trento. I love problem solving and hackathons, and won 7 of them with my team in the past year. Previously, I worked as Interaction Designer at Telekom Innovation Laboratories in Berlin and completed a **double master's degree** in HCI, studying both in Paris and Berlin, and a bachelor in Computer Science.

EXPERIENCE

- **UX DESIGNER; PROJECT MANAGER**
CrowdInsights | November 16

Worked on both design- and business-sides of a European project on smart cities. I've run interviews and workshops, created the branding, designed a mobile app from sketches to hi-fi prototype
- **COMMUNITY MANAGER; PRESIDENT**
Speck&Tech + EIT Digital Alumni | March 16

I co-founded Speck&Tech, now the most popular tech-community in Northern Italy (16+ events, 100+ participants each). Plus, in 18 months, I grew the members of the EIT Digital Alumni by **1000%**
- **UX & INTERACTION DESIGNER**
Telekom Innovation Labs | April 15 - March 16

I conceived, designed and implemented new ways to improve the user interaction with **tabletop systems** using low-tech solutions. I then evaluated and compared these techniques with 24 users

EDUCATION

- **HUMAN-COMPUTER INTERACTION & DESIGN**
Univ. Paris-Sud; TU Berlin | Sep 13 - Mar 16

I completed a joint double-degree M.Sc. programme in HCI & Design, studying at both Université Paris-Sud and TU Berlin. I had the honor of having two HCI Pioneers as my professors
- **INNOVATION & ENTREPRENEURSHIP**
EIT Digital Master School | Sep 13 - Mar 16

My Master programme was highly focused on how to drive innovations to the market: from the initial concept to launch of a startup, from business development to IPR & finance
- **COMPUTER SCIENCE BACHELOR**
University of Trento, Italy | Sep 10 - Jul 13

I gained experience with fundamental informatic concepts and coding paradigms. I learnt advanced maths and imperative programming, OOP and functional programming languages

LANGUAGE SKILLS

Born and raised in Italy, I speak fluently **(American) English** and **Spanish**. I also do speak some German and basic French. I love travelling, have been to 30+ countries and counting

PASSIONS

I am a natural **networker**. I love bringing people together, both for formal and informal occasions. I adore **organizing events**, gatherings and meet people with different backgrounds and expertise. I love visiting new places, especially hidden gems only known by locals: that's why I'm a **Google Local Guide** and an experienced **Couchsurfer**.

SKILLS
