BIOGRAPHY

I'm a young **ICT professional** working at EIT Digital in Trento, mostly focusing on the management and business design aspects of two projects on smart cities involving TELCOs, startups and research centers. I'm the **President** of both the EIT Digital Alumni, a pan-European network of tech professionals, and Speck&Tech, a **tech-community** I co-founded in Trento. Previously, I worked at Telekom Innovation Laboratories in Berlin and completed a **double master's degree** (major HCI & Design, minor Innovation & Entrepreneurshop), studying both in Paris and Berlin, and a bachelor in Computer Science.

EXPERIENCE

PROJECT MANAGER; BUSINESS DESIGNER

EIT Digital | January 17 - now

Working on both **business design** and management aspects of two projects on smart cities (CrowdInsights, WELCOME). Run workshops, developed **business models**, designed mobile apps and websites.

COMMUNITY MANAGER; PRESIDENT

Speck&Tech + EIT Digital Alumni | March 16 - now

I co-founded Speck&Tech, now the **most popular tech-community** in Northern Italy (25+ events). I manage the Alumni community and have increased the **number of members by 1300%** in 18 months.

UX & INTERACTION DESIGNER

Telekom Innovation Labs | April 15 - January 16

I conceived, designed and implemented new ways to improve the user interaction with **tabletop systems** using low-tech solutions. I then evaluated and compared these techniques with 24 users.

EDUCATION

INNOVATION & ENTREPRENEURSHIP

EIT Digital Master School | Sep 13 - Mar 16

My Master programme was highly focused on how to drive innovation to the market: from the initial concept to launch of a startup, from business development to IPR & finance

HUMAN-COMPUTER INTERACTION & DESIGN

Univ. Paris-Sud; TU Berlin | Sep 13 - Mar 16

I completed a joint double-degree M.Sc. programme in HCI & Design, studying at both Université Paris-Sud and TU Berlin. My specialization was in Multimodal Interaction.

COMPUTER SCIENCE BACHELOR

University of Trento, Italy | Sep 10 - Jul 13

I aquired mathematical knowledge, digital skills - mostly on programming and algorithms - and learnt how to solve complex problems concerning systems and information management.

LANGUAGE SKILLS

Born and raised in Italy, I speak fluently **English (C1+)** and **Spanish (B2)**. I also do speak some German and basic French. I love travelling, have been to 30+ countries and counting.

ITALIAN 100%

ENGLISH 95%

SPANISH 70%

PASSIONS

I am a natural **networker**. I love bringing people together, both for formal or informal occasions. I'm fond of **organizing events**, gatherings and meeting people with different backgrounds and expertise. I'm always up for **speaking in public** and giving talks. I've got no problems with working **24/7** on projects I believe in. I try to make this world a better place as a **Google Local Guide** and **Couchsurfer** - to also help reduce my ecological footprint.
